MODERN LUXURY SPOTLIGHT

THE DESIGN **SOCIETY**

ANDREA HUAINIGG

Simplicity and serene softness! Interior spaces designed by Andrea Huainigg leave her clients feeling peaceful, uplifted, and refreshed. Warm and natural tones flow in harmonious union throughout open floor plans dashed with tactile timber elements and clean-lined furniture pieces. Floating art and unique lighting designs become more prominent in these soft room schemes. The interior designer's work is strongly influenced by her European heritage having lived in Italy and Austria for most of her life and working closely with European home décor and furniture brands, which complement her design vision gracefully.

However, Andrea Huainigg's true passion evolves around her dedication for well-curated home décor and unique custom furniture. Always on the hunt for new ideas and treasures, her expertly hand-picked selections are now shown exclusively in her new Boutique Le Serene Home & Design in Palm Beach, a sought-after shopping destination right in the center of town. Upon entering the store, the vibe exudes calmness and sophistication defining the signature look of Le Serene Home & Design.
